

# USDT Zelman (USDTZ) - Whitepaper

## About USDT Zelman

USDT Zelman (USDTZ) is a next-generation cryptocurrency designed to provide a stable, secure, and community-driven financial ecosystem.

Built on the Binance Smart Chain (BEP-20), USDT Zelman combines the trust of stable assets with the power of decentralized blockchain technology.

Our goal is to create a token that offers low transaction fees, rapid transfers, and real-world utility while rewarding long-term holders.

## Vision

We envision a global decentralized financial system where every individual, regardless of location or status, has equal access to secure, borderless, and efficient payment solutions.

## Mission

Our mission is to deliver a transparent, community-powered, and value-driven token that supports financial inclusion, facilitates global trade, and drives blockchain adoption.

## Tokenomics

Liquidity Pool: 50% - Ensures stability and smooth trading

Community Rewards & Airdrops: 25% - Rewards holders, boosts engagement

Marketing & Partnerships: 10% - Promotes adoption and collaborations

Team & Development: 10% - Supports team incentives and growth

Reserve Fund: 5% - Secures future opportunities

Transaction Tax: 3% on all transactions, allocated to the tax wallet for ecosystem growth.

## Roadmap
